DECISION NO. 70102

COMPLIANCE TO A DECISION

Decision No. 70102 ordered the Company to monitor its system and submit the gallons pumped and sold to determine the actual water loss for one full year. If the water loss for the period is greater than 10 percent, the Company was ordered to prepare a report containing a detailed analysis and plan to reduce water loss to 10 percent or less.

In 2009, the Dells Water Company pumped 7,769,253 gallons from its two wells. The Company sold a total of 7,360,998 gallons to its customers. The total water loss equals 5.3%, which meets the requirements of the Commission's Decision.
